
LM AERONAUTICS SUPPLIER ALERT

Date: 19 September 2017

SA Number: SAF35-2017-006

Initiator: Madison Connery
Materials and Processes Common Services
Materials & Processes Engr. Asc.
817-762-1937 / madison.e.connery@lmco.com

Suppliers Affected: All Build-To-Print Suppliers

Applicable Programs: F-35

Affected Sites: All LM Aero sites

Effectivity: **Beginning Date/Event:** 19 September 2017

Subject: 2ZZP00008 Class 2F qualified marker

Purpose: Alert suppliers to the conditional approval of a new product listed in EMAP A243.0001

NOTE: Please disregard this Alert if “Suppliers Affected” as stated above is not applicable to your company.

Message/Text:

This Supplier Alert is notice to the conditional requirements, listed within and in EMAP A243.0001, for the Sharpie products 1742665 and 1742663 used as a Class 2F marking per 2ZZP00008.

When using these pens for marking per 2ZZP00008 Class 2F, user shall wait a minimum of 30 minutes before applying an overcoat per the requirements in 2ZZP00008, Section 3.3.13. For both products, 1742665 and 1742663, an overcoat is required for all part markings.

In addition to the release of this Supplier Alert, these requirements are listed in the EMAP listing for 2ZZP00008 as conditionally approved products, A243.0001. If and when they are fully qualified, the mandatory overcoat for all uses will be lifted.

If you have any questions regarding this Supplier Alert, please contact Madison Connery.
